YEAR-END REPORT

2015

Year-end Report 2015

NET ASSET VALUE AND THE LATOUR SHARE

- The net asset value rose to SEK 317 per share, compared to SEK 250 per share at the beginning of the year. This is an increase of 29.9 per cent, adjusted for dividends. By comparison, the Stockholm Stock Exchange's Total Return Index (SIXRX) increased by 10.4 per cent. The net asset value was SEK 297 per share at 17 February.¹
- The total return on the Latour share was 57.2 per cent for the period, which is better than the SIXRX index by a considerable margin.
- The Board of Directors proposes a dividend of SEK 6.75 (6.00) per share.

INDUSTRIAL OPERATIONS

Fourth quarter

- The industrial operations' order intake rose 9 per cent to SEK 2,166 m (1,994), which represents a 3 per cent increase for comparable entities adjusted for foreign exchange effects.
- The industrial operations' net sales rose 13 per cent to SEK 2,284 m (2,018), which represents a 7 per cent increase for comparable entities adjusted for foreign exchange effects.
- The operating profit increased by 17 per cent to SEK 270 m (229), which equates to an operating margin of 11.8 (11.4) per cent for continuing operations.
- During the quarter, Nord-Lock acquired its distributor in Korea. The company has 10 employees and annual sales of approximately SEK 35 m. Latour also acquired 66.1 per cent of the shares in Neuffer Fenster + Türen GmbH, which reports annual sales of approximately EUR 13 m and has 24 employees.
- During the quarter, Latour concluded an agreement for the disposal of the Specma Group business area. The sale was finalised on 4 January for an EV-value corresponding to SEK 780 m.

Full year

- In the first quarter, 30.1 per cent of the shares in Troax Group AB were acquired. The company reports annual sales of approximately SEK 900 m. In the second and fourth quarters, the ownership in Nobia dropped to 2.8 per cent following the disposal of 18.4 million shares corresponding to a purchase price of SEK 1.8 billion.

EVENTS AFTER THE REPORTING PERIOD

• All Sealing Solutions, a Norwegian company with annual sales of NOK 27 m and 15 employees, was acquired in January by Specma Seals, a subsidiary in the Latour Industries business area.

LATOUR AT A GLANCE

Investment AB Latour is a mixed investment company consisting primarily of wholly-owned industrial operations and an investment portfolio of listed holdings in which Latour is the principal owner or one of the principal owners. The investment portfolio consists of ten substantial holdings that on 31 December 2015 had a market value of about SEK 39 billion. The holdings in the investment portfolio with the greatest value are Assa Abloy, Securitas and Sweco. In 2015, the wholly-owned industrial operations were grouped into five business areas, Hultafors Group, Latour Industries, Nord-Lock, Specma Group and Swegon, and generated a turnover of approximately SEK 8.5 billion.

¹ The calculation of the net asset value on 17 February 2016 was based on the value of the investment portfolio at 1 p.m. on 17 February and the same values as on 31 December were used for the unlisted portfolio.

Comments from the CEO

"2015 was the best year ever for Latour. The operating profit in the fourth quarter also meant that it was the best fourth quarter ever for the industrial operations. The same is true for the second and third quarters of 2015. We have seen a dramatic increase in profit, despite low organic growth and the continuation of rather considerable investments in product development, sales and marketing, all of which are included in the income statement. Furthermore, our listed holdings have produced good earnings and their growth in value during the year has therefore been better than the benchmark index. The partowned unlisted holdings are also producing good earnings, but their impact on the Group as a whole is marginal. Altogether, they reported a record consolidated net profit of SEK 4.1 billion.

In the fourth quarter, industrial operations reported a 3 per cent organic increase in order intake and 7 per cent in net sales. For the full year, the corresponding growth rate for both order intake and invoiced sales was 2 per cent. The business areas that developed best were Hultafors Group and Latour Industries. Growth has been slightly slower for Swegon and Nord-Lock, although it improved in the last quarter. When acquisitions and foreign exchange effects are included, both order intake and invoiced sales in the industrial operations grew by 13 per cent during the year.

In the fourth quarter, the operating profit increased by 17 per cent to SEK 270 m (229), which equates to an operating margin of 11.8 (11.4) per cent. The operating profit for the year increased by 29 per cent to SEK 972 m (755).

The uncertain market conditions continue to make it difficult to predict the situation over the coming years. Stabilisation in the oil and gas industry at a long-term, sustainable level and stabilisation in growth in China are key issues affecting the world economy. The fact that the US economy has lost some momentum is perhaps largely due to developments in the oil, gas and mining industries. And although parts of Europe are slowly seeing better growth, it still doesn't feel like the economy is on a stable and sustainable path of recovery.

Despite relatively weak market growth, we are confident that our firm footing will allow us to continue to report strong earnings. We conduct our operations based on the premise that we cannot count on the economic situation offering us any significant help. But when it comes to investment in product development, marketing and sales, we're not slackening the pace. There is a particular need to increase the content of digital solutions in traditional industries too. I believe our acquisition of Neuffer in the fourth quarter to be an important building block in our digitisation activities.

We are currently in a strong financial position, which means there is no reason to slow our rate of growth through acquisitions, even if times become more difficult. There should instead be increased opportunities. We made two acquisitions in the industrial operations in the fourth quarter. Nord-Lock acquired its distributor in Korea, with annual sales of SEK 35 m and 10 employees. South Korea has a massive manufacturing industry which is an extremely important market for Nord-Lock. In addition, the Latour Group acquired the German company Neuffer Fenster + Türen GmbH, which reports annual sales of EUR 13 m and has 24 employees. The acquisition constitutes an important step into the digital world for Latour and will help increase expertise throughout the industrial operations.

During the fourth quarter, we concluded an agreement for the sale of Specma Group. Back in August, we announced our intention to divest the business area and we are very pleased that the new industrial owner is the Danish company, Hydra-Grene. Hydra-Grene has many years of experience in the field of hydraulics and plans to further strengthen Specma's and Hydra-Grene's footholds in the Nordic region and globally. The sale was a natural part of our ongoing focus on operations that fulfil the investment criteria that we have today.

Many of our listed holdings have submitted their reports for the fourth quarter. On the whole, the companies have once again reported very positive performances with regard to both growth and profitability. We continued to sell shares in Nobia in the fourth quarter and our holding at year-end was 2.8 per cent of capital and votes.

The value of the investment portfolio in 2015 rose 31.6 per cent, adjusted for dividends, thus outperforming the SIXRX benchmark index, which rose 10.4 per cent. The net asset value in Latour increased in 2015 by 29.9 per cent to SEK 317 per share, adjusted for dividends. Following the positive performance in 2015, the Board propose an increased dividend to SEK 6.75 (6.00) per share."

Industrial operations

Order intake, invoiced sales and earnings Fourth quarter

The total order intake increased to SEK 2,166 m (1,994) during the fourth quarter. Invoiced sales increased to SEK 2,284 m (2,018), which is equivalent to 7 per cent organic growth when adjusted for foreign exchange effects and acquisitions. The operating profit in the wholly-owned industrial operations increased by 17 per cent to SEK 270 m (229) in the quarter. The operating margin was 11.8 (11.4) per cent.

Full year

The order intake for the year as a whole increased to SEK 8,613 m (7,643). Invoiced sales increased to SEK 8,555 m (7,559), which is equivalent to 2 per cent organic growth when adjusted for foreign exchange effects and acquisitions. The operating profit in the wholly-owned industrial operations increased by 22 per cent to SEK 972 m (796)*. The operating margin was 11.4 (10.5)* per cent.

* The comparative figures indicate adjusted operating profit and adjusted operating margin for divested operations.

Please refer to pages 5-7 for more details about developments in each business area.

New financial targets

The Board of Directors for Latour has decided to set new financial targets, which were communicated when the ninemonth report was published. Previous targets are shown below in brackets:

- Growth: At least 10 per cent annually (as before).
- Profitability: Operating margin of at least 10 per cent (as before).
- Return on operating capital: 15-20 per cent return (previously at least 20 per cent).

All three targets should be viewed over a business cycle.

The Board believes that the new required rate of return on operating capital is more suited to a business that conducts a significant amount of acquisition activity. It should be regarded as an intention to further stimulate growth through acquisition. To a certain extent, the lower rate can be set in relation to the market-wide, increasingly lower, required rate of return. However, that is not the primary reason.

Our financial targets should also be seen as a group target and as minimum targets for our holdings. The individual business areas and investments can have their own targets that are much higher.

Acquisitions

Two acquisitions were made in the industrial operations in the fourth quarter. Nord-Lock acquired its distributor in Korea, with annual sales of SEK 35 m and 10 employees. South Korea has a massive manufacturing industry which is an extremely important market for Nord-Lock.

In addition, the Latour Group acquired the German company Neuffer Fenster + Türen GmbH, which reports annual sales of EUR 13 m and has 24 employees. Neuffer sells and markets windows via its established online sales sites fensterversand.com, fenetre24.com and fönster24.com. The acquisition constitutes an important step into the digital world for Latour and will help increase expertise throughout the industrial operations. The purchase price amounts to EUR 18 m. In 2015, the company delivered an operating margin of 3 per cent in a strong growth phase.

Earlier in the year, Nord-Lock acquired the British company Boltight, which is a leading manufacturer of hydraulic bolt tensioning equipment. The company has 18 employees and annual sales of approximately GBP 4 m. In the second guarter, REAC AB acquired a smaller business from the Ergolet Group in Poland. It generates annual sales of approximately SEK 30 m and is based in Jasien in Poland. In June, Latour Industries also acquired Produal, a leading Finnish manufacturer of devices for measurement and room control in the field of building automation. Produal has 95 employees and generates sales of EUR 18 m with a very high level of profitability and operates in an area that is related to our holdings in the field of energy efficiency in buildings, Kabona, Bastec and Elvaco. In less than three years, Produal has nearly doubled its international business and has achieved sales growth of almost 20 per cent per annum. Specma Group made a smaller acquisition in June with its purchase of Hydraulikhuset. The company has 26 employees and generates sales of approximately SEK 60 m.

In the second quarter, Latour also expanded its portfolio of other unlisted part-owned holdings by acquiring 18 per cent of the shares in Steelwrist. The company develops, manufactures and sells tools that increase excavator efficiency, operator-friendliness and safety. The company has 57 employees and had an annual turnover of SEK 116 m in 2014.

Divestitures

In August, Latour announced its intention to divest the Specma Group business area. An agreement for the sale was concluded on 9 November 2015. The Swedish Competition Authority approved the sale on 18 December and the purchasers took over on 4 January 2016. In 2015, Specma Group had a turnover of SEK 1,369 m and an operating profit of SEK 72 m. The transaction results in a reduction of Latour's net debt by about SEK 780 m and a capital gain of approximately SEK 180 m, reported in the first quarter of 2016.

The Latour share's net asset value

In order to facilitate the evaluation of Latour's net asset value, Latour provides an estimated range of the value (Enterprise Value) for each business area based on EBIT multiples. These multiples have been calculated by comparing valuations of listed companies in comparable industries. Since there are variations in the listed companies' valuations these are reflected in the tables by valuing each business area in a range. Deductions are then made for the Group's net debt. The evaluation of comparable companies is based on the share price on the balance sheet date. Any price changes after the balance sheet date have not been taken into consideration.

A more detailed description can be found on pages 20–21 in Latour's Annual Report for 2014.

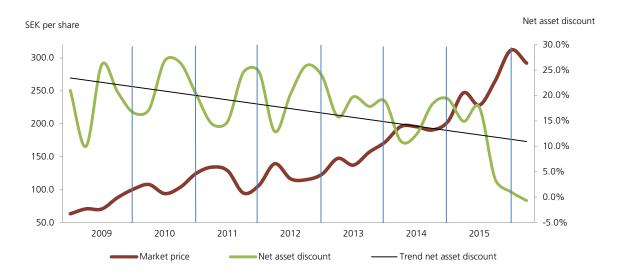

In some cases, the valuation multiples for comparable companies span over a very big range. For this reason the multiples may be adjusted in order to avoid unreasonable values. The indicative value stated below is not a complete market valuation of Latour's holdings.

The net asset value increased to SEK 317 per share during the period from SEK 250 at the beginning of the year. The net asset value consequently increased by 29.9 per cent, adjusted for dividends, which can be compared to SIXRX which rose 10.4 per cent.

Movements in investment portfolio values

Movements in investment portfolio values (SEK billion). These figures include acquired/sold cost but not dividend payments for the period.

Total return for the portfolio companies

The total return, including share price development and dividends, for each portfolio company.

² The shareholdings in Assa Abloy, Loomis, Securitas and Sweco consist of class A and class B shares. Due to the limited trading in class A shares in Sweco, and the fact that the other three companies' class A shares are unlisted, the shares are reported together and have been given the same listed share price.

³ Shown as associated companies in the balance sheet.

⁴ At the end of December 2015, 90,000 shares were loaned out and are therefore not counted in Latour's share of votes.

⁵ At the end of the report period, the listed share price was NOK 95.50 which has been translated to SEK at the exchange rate on the balance sheet date.

⁶ The last price paid is used as the listed share price.

⁷ Shares calculated after deduction of treasury shares.

Not including repurchased shares, the number of outstanding shares at 31 December 2015 amounted to 159,557,500. At the end of the period, Latour held 402,500 repurchased class B shares. The total number of outstanding call options is 662,500.

The allocation of issued shares is 11,918,648 class A shares and 148,041,352 class B shares.

Events after the reporting period

The acquisition of Neuffer Fenster + Türen GmbH was finalised on 1 January 2016. The disposal of Specma Group was finalised on 4 January. Otherwise, there were no material events subsequent to the end of the reporting period.

Dividends

The Board of Directors proposes an increase of the regular dividend to SEK 6.75 (6.00) per share. In absolute terms, this corresponds to a dividend payout of SEK 1,077 m.

Risks and uncertainties

The main risk to which the Group and the parent company are exposed is the risk attributable to adverse changes in the values of financial instruments, including a general decline in the stock market or in the value of an individual holding. This includes uncertainties relating to changes in exchange rates and interest rates. Latour has a well-diversified holding of shares, spread across ten listed holdings and four whollyowned business areas. This means that the development and performance of an individual holding will not have a drastic impact on the portfolio as a whole. As the whollyowned industrial operations have increased in size, Latour as a whole is influenced to a greater degree by changes attributable to these operations. On the whole, Latour is deemed to have a good risk diversification in its portfolio, which covers several industries, with a certain emphasis on sectors linked to the construction industry. Construction can also be divided into several dimensions, such as new builds or government-subsidised repair, conversion or extension work, locally or globally, and housing, office and industrial premises or infrastructure projects. No other material risks in addition to those described in Note 34 of Latour's Annual Report 2014 are deemed to have arisen.

Audit and accounting policies

This interim report has been prepared in accordance with the Swedish Annual Accounts Act and IAS 34 Interim Reporting in respect of the Group and in accordance with the Annual Accounts Act and Recommendation RFR 2 Accounting for Legal Entities of the Swedish Financial Reporting Board in respect of the parent company.

New accounting standard requirements that came into effect on 1 January 2015 have not had any impact on the Group's or parent company's accounting as at 31 December 2015.

In other respects, the accounting policies adopted by the Group and parent company are consistent with those used in the preparation of the most recent annual report.

This report has not been audited by the company's auditors.

Estimated additional purchase prices amounting to SEK 7 m for the acquisition of Hydraulikhuset BKH AB and SEK 1 m for the acquisition of Tech Eng Australia have been booked.

Note 2: Information regarding financial assets and liabilities

The table below shows how fair value is determined for the financial instruments valued at fair value in the report on financial positions. Fair value is determined according to three different levels. Compared to the 2014 annual accounts, no transfers were made in 2015 between the different levels of fair value hierarchy and no changes have occurred in the applied valuation techniques and/or principles.

^{*} Reported assets and liabilities include the disposal group classified as held for sale.

Listed financial assets are valued at their quoted market price on the balance sheet date. Fair value of unlisted financial assets is determined by using valuation techniques such as a recent transaction, the price of a similar instrument or discounted cash flows.

Hedging instruments consist of forward exchange contracts and interest rate swaps and are included in level 2. Valuation at fair value of the forward exchange contracts is based on levels established by the bank on an active market.

The fair value of accounts receivable and other receivables, current receivables, cash and other liquid funds, accounts payable and other liabilities as well as long-term liabilities are estimated to have the same value as their carrying amount. Market interest is not believed to materially deviate from the discount rate for interest-bearing long-term liabilities and therefore the carrying amount is considered in essence equal to the fair value.

The Group's valuation process is carried out by the Group finance and treasury department where a team works with valuation of the financial assets and liabilities held by the Group.

Note 3: Non-current assets held for sale and discontinued operations

The assets and liabilities relating to Specma AB with subsidiaries have been recognised as held for sale following the approval of the Board. Specma Group was sold on 4 January 2016.

Statement of income from discontinued operations and recognised income resulting from remeasurement of assets or disposal groups are presented below:
