Proposals for adoption

Point 9 b, dividends and record date

The board of directors has proposed a dividend of SEK 6.75 per share. The board has proposed Friday 6 May 2016 as the record date for the payment of dividends. If the Annual General Meeting approves the proposal it is estimated that Euroclear Sweden will execute this dividend on Wednesday 11 May 2016.

Point 2, 10 – 13, chairman, board of directors and auditing firm

The nominating committee, consisting of Gustaf Douglas, chairman, Björn Karlsson (Bertil Svensson's family and foundation) and Johan Strandberg (SEB funds) has made the following proposal:

- That Fredrik Palmstierna be elected chairman of the Meeting.
- That the board consist of eight members and no deputies.
- That the remuneration for the board amounts to a total of SEK 3,600,000 of which SEK 1,200,000 to the chairman (unchanged) and SEK 400,000 to each member of the board not employed in any of the Group companies (unchanged). Auditors shall be paid according to an approved invoice.
- Re-election of the following board members: Mariana Burenstam Linder, Anders G. Carlberg, Anders Böös, Carl Douglas, Eric Douglas and Jan Svensson and new election of Olle Nordström and Lena Olving. The proposed board members are presented in more detail on the company website, www.latour.se. Elisabeth Douglas and Fredrik Palmstierna have declined re-election.
- Re-election of the auditing firm Öhrlings PricewaterhouseCoopers AB until the end of the Annual General Meeting 2017.
- Furthermore the nominating committee proposes that the Meeting elect Olle Nordström chairman of the board.

Point 14, authorisation of the board to buy back and transfer its own shares

The board proposes that the Annual General Meeting authorises the board to, until the next Annual General Meeting, on one or several occasions, acquire its own shares. The company may acquire up to ten (10) percent of the outstanding shares in the company. The total number of shares may consist of A shares or B shares, or a combination thereof. The shares may be acquired through offers to all shareholders or through trading on the NASDAQ Stockholm. If purchased on the NASDAQ Stockholm the price will correspond to the market price at the time of the acquisition with a deviation that does not exceed the registered price interval on each occasion. The purpose of this acquisition is to adjust the company's capital structure, achieve added value for the shareholders as well as to finance acquisitions with shares and be able to meet the obligations of call option programs.

The board is also authorised to, on one or several occasions, until the Annual General Meeting 2017, transfer its own shares owned by the company at the time of the board's decision. The shares may be acquired through trading on the NASDAQ Stockholm at the registered price interval on each occasion. The transfer of shares acquired according to the above may take place outside of NASDAQ Stockholm with or without deviating from shareholders' preferential rights and with or without provisions of contribution or set-offs. The transfer of shares may in other words be used as payment in connection with acquisitions on terms in accordance with the Companies Act regulations regarding new issues and/or to cover the company's obligations for the proposed call option program in point 16, including previous years' programs. This transfer may be for a price in money or the value of received asset which, for acquisitions, corresponds to the market price at the time of the transfer or which, for a transfer according to issued call options, corresponds to a price determined by an independent consultant to be a fair market price on the date of issuance of the options.

Point 15, principles for remuneration for the Group management

The board proposes the Annual General Meeting to adopt the following principles for remuneration to Group management. Remuneration for the chief executive officer and other senior officers consist of basic wage, variable remuneration and pension. Other senior officers are members of the Group management and business area managers. The variable remuneration is based on goals achieved and can amount to 0-100 percent of basic wage. In order to promote a long-term perspective the board may also decide on remuneration, besides the annual variable remuneration, connected to the business areas' long-term value development over a period of three years, maximized to a third of the basic wage per year during a three year period. The retirement age for the chief executive officer is 62, after which pension makes up 60 percent of basic wages for three years. The retirement age for all other senior officers is 65.

The board further proposes that remuneration to the board of directors be complemented with share-related incentive programs (such as call option programs), provided that these promote long-term commitment in the operation and provided that they be based on market terms.

Point 16, proposal for call option program for senior officers

The board proposes the Annual General Meeting adopt a call option program for the chief executive officer and senior officers, executive management in the business areas and employees at Latour's headquarters.

The Annual General Meeting is proposed to authorise the board to issue, until the next Annual General Meeting, call options for a further 200,000 B shares maximum, corresponding to no more than 0.13 percent of the total number of shares and 0.07 percent of total number of votes.

Until the next Annual General Meeting senior officers will be given the opportunity to acquire call options for a maximum of 200,000 B shares, of which the chief executive officer will be offered a maximum of 40,000 B shares. The terms of the call options will be based on market terms following established models at the time of each issue. The option premium will be 10 percent of the share price on the date of issue. The call options will have maximum 4.3 years maturity from the date of issue and the subscription period will be 20 May 2020 – 30 June 2020. The exercise price will be determined by an independent valuer on each occasion, following established valuation models.

If the Annual General Meeting approves the board's proposal the company, with a deviation from shareholders' preferential rights, will transfer to the option holders up to 200,000 B shares for the fixed subscription price of the options if the call options are taken advantage of (with reservations for any recalculation due to bonus issues, merging or splitting shares, new issues, reduction in share capital, or other similar actions). At the time of the summons Latour owns 402,500 repurchased B shares, all of which are charged by previous years' call options. This means, if this year's program is fully subscribed, that Latour needs to buy back 460,000 B shares in order to ensure delivery for this and previous year's programs.

The proposal is a part of creating a long-term incentive for important employees. The proposal is considered to be of reasonable scope for employees and Latour's shareholders. There is already a corresponding program from Annual General Meetings 2012-2015 comprising 662,500 call options. It is the intention of the board to return to similar propositions at coming Annual General Meetings. Since the program is based on market terms and since it entails a financial risk for the senior officers it does not generate social security costs.

Point 17, proposal for nominating committee

The nominating committee proposes a nominating committee consisting of a representative for the principal shareholder and two or three representatives of other major shareholders. The nominating committee is elected by the Annual General Meeting. It is noted that the committee's assignment is to represent all shareholders. The following nominating committee is proposed for the 2017 Annual General Meeting: Gustaf Douglas, Chariman, Fredrik Palmstierna (Palmstierna family and companies), Björn Karlsson (Bertil Svensson's family and foundation) and Johan Strandberg (SEB funds).

Majority requirement

In order for the decisions regarding point 14 according to the above proposals to be valid shareholders holding two-thirds (2/3) of the votes given and the shares represented at the Annual General Meeting must support them. For the decision regarding point 16 to be valid a majority of nine-tenths (9/10) of the votes given and the shares represented is required.

Number of shares and votes

At the time of the summons the total number of shares in the company amounted to 159,960,000, of which 11,918,648 A shares and 148,041,352 B shares. In total the company owned 402,500 B shares. The total number of votes in the company amounted to 267,227,832, of which the company had 402,500 votes.

Documents

The Annual Report including the audit report, the complete proposals for adoption in points 14 and 16 as well as an auditor statement according to chapter 8 § 54 of the Company Act regarding the application of principles for remuneration and other employment terms for company management will

be available at the company no later than three weeks before the Annual General Meeting. In addition the nominating committee's proposal and motivations as well as the board's proposals and statements according to chapter 18 § 4 of the Company Act will be available at the company for the same period. Documentation can also be found on the company website www.latour.se. Shareholders wishing to partake of these documents can notify the company thereof and the material will be sent via mail or e-mail.

Shareholders' right to information

The shareholders are hereby informed of their right to request information at the Annual General Meeting from the board and chief executive officer regarding circumstances that may influence assessments of points on the agenda, the financial situation of Group companies and the company's relationship to another Group company. This information will be given as long as it is not considered harmful to the company.
