

Interim report January - September 2018

NET ASSET VALUE AND THE LATOUR SHARE

- The net asset value rose to SEK 108 per share, compared with SEK 95 per share at the start of the year. This is an increase of 17.0 per cent, adjusted for dividends. By comparison, the Stockholm Stock Exchange's Total Return Index (SIXRX) increased by 11.3 per cent. The net asset value was SEK 106 per share at 5 November.¹
- The total return on the Latour share was 12.6 per cent in the period compared against SIXRX at 11.3 per cent.

INDUSTRIAL OPERATIONS

Third quarter

- The industrial operations' order intake rose 21 per cent to SEK 2,787 m (2,311 m), which represents a 10 per cent increase for comparable entities adjusted for foreign exchange effects.
- The industrial operations' net sales rose 21 per cent to SEK 2,857 m (2,362 m), which represents a 10 per cent increase for comparable entities adjusted for foreign exchange effects.
- The operating profit increased by 29 per cent to SEK 399 m (310 m), which equates to an operating margin of 14.0 per cent (13.1) for continuing operations.
- On 6 July, Hultafors Group acquired Hellberg Safety AB in Stenkullen. On 5 September, Swegon signed an agreement for the
 acquisition of the German company Zent-Frenger GmbH. In September, Nord-Lock's acquisition of its Spanish distributor IDQ was
 finalised.

January - September

- The industrial operations' order intake rose 19 per cent to SEK 8,730 m (7,315 m), which represents a 10 per cent increase for comparable entities adjusted for foreign exchange effects.
- The industrial operations' net sales rose 19 per cent to SEK 8,392 m (7,059 m), which represents a 10 per cent increase for comparable entities adjusted for foreign exchange effects.
- The operating profit increased by 25 per cent to SEK 1,076 m (858 m), which equates to an operating margin of 12.8 per cent (12.1) for continuing operations.

THE GROUP

- Consolidated net sales totalled SEK 8,517 m (7,230 m) and profit after financial items was SEK 1,952 m (2,288 m). Assa Abloy's goodwill write-down in the second quarter negatively impacted the income statement by SEK 570 m. Additionally, a revaluation of the holdings negatively impacted the income statement by SEK 230 m. Excluding these items, profit increased by 20 per cent to SEK 2,752 m (2,288 m).
- Consolidated profit after tax was SEK 1,697 m (2,090 m), which is equivalent to SEK 2.66 (3.28) per share.
- Net debt at the end of September was SEK 5,233 m (4,390 m) and is equivalent to 7 per cent of the market value of total assets.

INVESTMENT PORTFOLIO

- During the period, the value of the investment portfolio increased by 15.5 per cent adjusted for dividends and net investments. The benchmark index (SIXRX) rose 11.3 per cent.
- In the first quarter of the year, 800,000 shares were acquired in Alimak Group and a further 545,000 were acquired in the third quarter. At the end of the period, the ownership stake in Alimak Group amounts to 29.2 per cent of the capital.

EVENTS AFTER THE REPORTING PERIOD

Swegon has completed the acquisition of Zent-Frenger. No other material events subsequent to the end of the reporting period.

LATOUR AT A GLANCE

Investment AB Latour is a mixed investment company consisting primarily of wholly-owned industrial operations and an investment portfolio of listed holdings in which Latour is the principal owner or one of the principal owners. The investment portfolio consists of ten substantial holdings that had a market value of about SEK 54 billion as at 30 September 2018. The wholly-owned industrial operations are grouped into four business areas: Hultafors Group, Latour Industries, Nord-Lock Group and Swegon. They generate a turnover of approximately SEK 11 billion.

¹ The calculation of the net asset value on 5 November was based on the value of the investment portfolio at 1 p.m. on 5 November and the same values as at 30 September were used for the unlisted portfolio.

Comments from the CEO

"In summarising the third quarter, we are able to report that all the business areas in our wholly-owned industrial operations are continuing to expand through both acquisitive and organic growth. Order intake and invoiced sales both grew by 21 per cent in the quarter. Excluding acquisitions and foreign exchange effects, order intake grew by almost 10 per cent and invoiced sales by just over 10 per cent. Our consistent investment in product development, sales and marketing in the companies therefore continues to pay off. At the end of the quarter, the order backlog stood at SEK 1,545 m (1,234 m) and is thus up 25 per cent on the previous year's value. As a result of the industrial operations' robust growth, the operating profit once again reached a record high in absolute terms and we are pleased to report the best quarter ever in absolute terms with an operating profit of SEK 399 m (310 m) and an operating margin of 14.0 per cent (13.1). We have exceeded all our financial targets in the last 12-month period. Growth was 18 per cent, the operating margin was 12.6 per cent and the return on operating capital was 15.8 per cent. The industrial operations now have an annual turnover in excess of SEK 11 billion.

The economic situation has remained strong throughout the third quarter. However, there are a number of markets that we feel are showing some uncertainty and slightly less activity than before, mainly the UK, Germany, the Middle East and China. We are seeing signs of a slight slowdown in North America too. Despite indications of a slowing in activity, our wholly-owned industrial operations continued to report good growth. Nord-Lock in Asia, for example, delivered yet another excellent quarterly performance with 24 per cent organic growth, and our largest business area, Swegon, announced almost 13 per cent organic growth. Although the slowdown has not had a major impact on our operations in the third quarter, we are now getting our operations ready for a possible downturn in the economy.

We believe that our stable earnings performance will enable us to continue building our business for the future, even if faced with a more uncertain economic climate. The search for suitable companies to add to the Group continues with unabated vigour, and the industrial operations were complemented by two acquisitions during the quarter. The Swedish company Hellberg Safety AB was acquired for Hultafors Group and the German company Zent-Frenger GmbH for Swegon. You can find out more about our acquisitions in 2018 on page 4. Combined, they add more than SEK 700 m in annual sales.

The growth in value on the stock exchange has remained positive throughout the third quarter and the value of our investment portfolio increased in the 9-month period by 15.5 per cent, adjusted for dividends and net investments. By comparison, the SIXRX increased by 11.3 per cent. In the same period, the net asset value in Latour increased by 17.0 per cent to SEK 108 per share, adjusted for dividends.

The majority of our listed holdings have now reported. Overall, they have submitted good or excellent reports, but like for many other companies with very mixed reactions. The short-term movements of the stock exchange obviously do not affect our attitude towards the companies nor our long-term approach of helping to build strong, healthy and profitable companies that generate long-term value for shareholders."

Jan Svensson President and Chief Executive Officer

Industrial operations

Order intake, invoiced sales and earnings

In the third quarter, the order intake increased by 21 per cent to SEK 2,787 m (2,311 m), with organic growth accounting for 10 per cent of this. Invoiced sales rose 21 per cent to SEK 2,857 m (2,362 m), with organic growth accounting for 10 per cent of this. The operating profit in the wholly-owned industrial operations increased by 29 per cent to SEK 399 m (310 m) in the quarter. The operating margin was 14.0 per cent (13.1). In the first nine months, the order intake increased by 19 per cent to SEK 8,730 m (7,315 m), with organic growth accounting for 10 per cent of this. Invoiced sales rose 19 per cent to SEK 8,392 m (7,059 m), with organic growth accounting for 10 per cent of this. The operating profit in the wholly-owned industrial operations increased by 25 per cent to SEK 1,076 m (858 m) in the 9-month period. The operating margin was 12.8 per cent (12.1).

The above figures only include subsidiaries of the whollyowned business areas. See the separate report on page 5.

Acquisitions/disposals

In the third quarter, two acquisitions were made in the wholly-owned industrial operations. On 6 July, Hultafors Group acquired the Swedish company Hellberg Safety AB. Hellberg develops and supplies communication solutions, hearing protection and face protection for the Personal Protective Equipment (PPE) market. Founded in 1962, the company has expanded over the years and currently has a presence in 50 markets with its own R&D, production, assembly and warehouse operations at its head office in Stenkullen, just outside Göteborg. Net sales amounted to SEK 66 m in 2017 with a profitability well in line with Latour's financial targets. The company employs around 20 people. The acquisition is part of Hultafors Group's strategy to expand its presence in the PPE market. This acquisition gives Hultafors Group access to a complete portfolio of state-of-the-art hearing protection products as well as customer relationships with a number of well-reputed companies.

On 5 September, Swegon signed an agreement for the acquisition of the German company Zent-Frenger GmbH. Zent-Frenger is a leading provider of radiant ceilings in Germany. It also develops and sells customised commercial heat pumps and thermally active building system (TABS) products. Zent-Frenger's products are used to create a comfortable indoor climate in commercial buildings such as offices and hotels, as well as apartment buildings. The company develops and assembles its products in Heppenheim, Germany. The company has about 100 employees and generated sales of EUR 29 m in 2017. The acquisition was subject to the approval of the German Federal Cartel Office (Bundeskartellamt), which was given in early October. The effective date of acquisition was 31 October.

Three acquisitions and one disposal have taken place earlier in the year. In March, the subsidiary Kabona AB was sold to Nordomatic AB, the largest independent system integrator within building automation in the Nordic region. The transfer is in line with Latour's long-standing policy of streamlining its operations to include investments in companies with clear product ownership and opportunities for internationalisation. Kabona AB was divided into two separate companies in 2017, with Ecopilot AB taking over the product ownership of the Ecopilot product concept. Kabona AB has subsequently had a more streamlined focus on energy efficiency projects in building automation.

Also in March, the subsidiary Bemsiq AB acquired Sensortec Holding AG, a leading Swiss company active in sensors for building automation. Sensortec is based in Ins in the canton of Bern in Switzerland. The product range includes a full line of field units for building automation, as well as touchless sensors for automatic door systems marketed under the brand name of SENSIR. Most of its products are based on proprietary design and technology but the portfolio also includes selected third-party products from leading suppliers, such as Produal which is also part of Bemsiq, in order to be able to offer a full range. The company has 10 employees and had an annual turnover of CHF 5.3 million in 2017.

On 30 April, Hultafors Group acquired Johnson Level & Tool Mfg. Co., Inc., ("Johnson"). The company's head office is located in Wisconsin, USA. Johnson is a widely-recognised provider of measuring tools and a market leader in several channels of distribution in the USA. Net sales amounted to approximately USD 36 m in 2017 with a profitability well in line with Latour's financial targets. The company employs around 70 people. The acquisition is part of Hultafors Group's strategy to strengthen its presence in North America. This acquisition gives Hultafors Group access to a wide network of distribution points in relevant sales channels in the USA, as well as a complete product portfolio of levels, lasers and other measurement, marking and layout tools.

On 20 June, Nord-Lock Group signed an agreement to acquire all shares in the distributor IDQ Investigación Diseno y Calidad, S.A.U. (IDQ). The acquisition was finalised in September. The acquisition is a natural step in the growth strategy of Nord-Lock Group and will strengthen its local presence in Spain, ensuring that Nord-Lock Group customers continue to receive the level of service and support that they expect. Spain is a significant market for bolt securing and tensioning and the aim is to assure that Nord-Lock Group continues on its trajectory of strong growth. IDQ reported a turnover of SEK 17 m and had 7 employees in 2017.

Highlights

- Demand continues to increase across all the product areas and most markets, which has led to good organic growth of 9 per cent during the quarter.
- The continued organic growth results in a solid performance for the quarter and for the first nine months of the year.
- Investment in the sales organisation, product development and marketing continues to be made in order to maintain the growth momentum.
- Johnson, acquired in April 2018, follows the planned targets that we set.
- Hellberg Safety AB in Sweden was acquired during the quarter. More details can be found on page 4.

Highlights

- Net sales rose 12 per cent in the quarter, of which 8 per cent was organic growth.
- The operating profit improved slightly in the third quarter but the operating margin targets were not achieved.
- LSAB, Aritco and Bemsiq in particular are delivering improved earnings.
- REAC's performance has recovered somewhat after a slow start to the year.
- Our investments in marketing, sales and product development continue at an unabated pace.

Hultafors Group offers products in the Personal Protective Equipment, Tools and Access Solutions segments. The products are marketed under brands with strong positions in their respective markets: Snickers Workwear, Dunderdon, Solid Gear, Toe Guard, Hultafors, Wibe Ladders, Johnson and Hellberg. Hultafors Group is also a distributor for the German manufacturing company Fein in the Swedish market.

Latour Industries consists of a number of operating areas, each with its own business concept and business model. Our ambition is to develop independent entities within the business area, so that they are eventually able to become established as separate business areas within Latour.

Highlights

- Net sales and operating profit both rose 20 per cent in the quarter, of which 10 per cent was organic growth.
- Sales in Asia Pacific are continuing to develop very well with 24 per cent organic growth during the quarter.
- Nord-Lock's first sales office in South America has opened in Santiago de Chile, Chile.
- Successful investment in product development and marketing, supported by digital and smart technologies, provides a solid foundation from which to deliver future profitable growth.
- The acquisition of the Spanish distributor IDQ was finalised in September.

Highlights

- The investment in product development in recent years has boosted organic growth by 13 per cent in the quarter.
- In the third quarter, 80 per cent of total net sales were sales outside of Sweden.
- North America has stabilised during the quarter and reported a strong third quarter.
- The order backlog remained at a high level and was at the close of the quarter 28 per cent above same period last year.
- An agreement for the acquisition of Zent-Frenger GmbH in Germany was signed in September. More details can be found on page 4.

Nord-Lock Group is a world leader in secure bolting solutions. The Group offers a wide range of innovative technologies including Nord-Lock wedge-locking, Superbolt multi-jackbolt tensioning, Boltight hydraulic tensioning and Expander System pivot technology. With a global sales organization and international partners the customers benefit from bolting expertise and the optimum solution for any bolting challenge.

Swegon provides components and innovative system solutions that create a good indoor climate and contribute to significant energy savings in all types of buildings. Swegon's products constitute a turnkey solution for the perfect indoor climate.

The Latour share's net asset value

In order to facilitate the evaluation of Latour's net asset value, Latour provides an estimated range of the value (Enterprise Value) for each business area based on EBIT multiples. These multiples have been calculated by comparing valuations of listed companies in comparable industries. Since there are variations in the listed companies' valuations, this is reflected in the table by valuing each business area in a range. Deductions are then made for the Group's net debt. The evaluation of comparable companies is based on the share price on the balance sheet date. Any price changes after the balance sheet date have therefore not been taken into consideration.

A more detailed description can be found on page 21 in Latour's Annual Report for 2017.

In some cases, the valuation multiples for comparable companies span over a very big range. For this reason, the multiples may be adjusted in order to avoid unreasonable values. The indicative value stated below is not a complete market valuation of Latour's holdings.

During the period, the net asset value increased to SEK 108 per share from SEK 95 at the start of the year. The net asset value consequently increased by 17.0 per cent, adjusted for dividends, measured against SIXRX which increased by 11.3 per cent.

¹ Trailing 12 months for current company structure (proforma). EBIT is, as appropriate, reported before restructuring costs.

 $^{^{\}mbox{\tiny 5}}$ Valued according to Latour's latest acquisition price.

² EBIT and EV/sales recalculated taking into consideration the listed share price on 30 September 2018 for comparable companies in each business area.

³ Calculated on the basis of the number of outstanding shares.

⁴ Valued according to the latest transaction.

The investment portfolio at 30 September 2018

During the first six months of the year, the value of the investment portfolio increased by 15.5 per cent, adjusted for dividends and net investments, while the benchmark index (SIXRX) was up 11.3 per cent.

800,000 shares in Alimak Group were acquired in the first quarter. A further 545,000 shares in Alimak were acquired in the third quarter and the ownership stake increased to 29.2 per cent.

¹ All holdings except Nobia are reported as associated companies in the balance sheet.

Investment portfolio during 2018

Movements in investment portfolio values (SEK billion). These figures include acquired and divested shares but not dividends.

Total return 2018 for the portfolio companies

 $^{^{\}rm 2}$ The last price paid is used as the listed share price.

³ Due to the limited trading in class A shares in Sweco, and the fact that the class A shares in Assa Abloy, Loomis and Securitas are unlisted, they have been given the same listed share price as the companies' class B shares. Holdings consisting of both class A and B shares are reported in the table as unit.

⁴ The cost of the class B shares are SEK 34 m higher than in the parent company through the exercise of call options.

⁵ The majority of the shareholding in Nobia was sold in December 2015, and Latour is therewith no longer a principal owner.

⁶ At the end of the report period, the listed share price was NOK 203 which has been translated to SEK at the exchange rate on the balance sheet date.

Results and financial position

The Group

The Group's profit after financial items was SEK 1,952 m (2,288 m). Of this figure, SEK 0 m (0 m) is capital gains. Profit after tax was SEK 1,697 m (2,090 m), which is equivalent to SEK 2.66 (3.28) per share. Our largest holding, Assa Abloy reported a significant goodwill write-down in the second quarter of 2018 which negatively impacted the income statement this year by SEK 570 m. Additionally, a write-down of the holding in Alimak negatively impacted the income statement by SEK 230 m.

The Group's cash in hand and liquid investments reached SEK 677 m (675 m). Interest-bearing debt, excluding pension liabilities, totalled SEK 5,870 m (5,026 m). The Group's net debt, including pension liabilities, was SEK 5,233 m (4,390 m). The equity ratio was 87 per cent (88) calculated on reported equity in relation to total assets, including undisclosed surpluses in associated companies.

During the first quarter, Latour registered a SEK 4 billion Medium Term Note (MTN) programme with the Swedish Financial Supervisory Authority (Finansinspektionen), which gives yet another source of finance. This was followed up in March with a successful issue of Latour's first three bonds with a total value of SEK 2.5 billion, and another bond issue totalling SEK 600 m was carried out in May.

There have been no transactions with related parties that have had a material effect on the results or financial position of the Group.

Investments

During the period, SEK 152 m (207 m) was invested in property, plant and equipment, of which SEK 102 m (97 m) was machinery and equipment, SEK 30 m (22 m) vehicles and SEK 20 m (88 m) buildings. Out of total investments for the year, SEK 35 m (103 m) refers to fixed assets in new acquisitions.

Parent company

The parent company's profit after financial items was SEK 1,411 m (1,082 m). The parent company's equity ratio was 76 per cent (100).

The number of class A shares issued is 47,642,448, and the number of class B shares is 592,197,552. Not including repurchased shares, the number of outstanding shares at 30 September 2018 amounted to 639,117,500. At the end of the period, Latour holds 722,500 repurchased class B shares.

The total number of issued call options is 1,401,000, which give the right to purchase 2,346,000 shares.

Events after the reporting period

The German Federal Cartel Office (Bundeskartellamt) approved Swegon's acquisition of Zent-Frenger GmbH in early October. Otherwise, there were no material events subsequent to the end of the reporting period.

Risks and uncertainties

The main risk to which the Group and the parent company are exposed is the risk attributable to adverse changes in the

values of financial instruments, including a general decline in the stock market or in the value of an individual holding. This includes uncertainties relating to changes in exchange rates and interest rates. Latour has a well-diversified holding of shares, spread across eleven listed holdings and four whollyowned business areas. This means that the development and performance of an individual holding will not have a drastic impact on the portfolio as a whole. As the wholly-owned industrial operations have increased in size, Latour is generally influenced to a higher degree by changes attributable to these operations. On the whole, Latour is deemed to have a good risk diversification in its portfolio, which covers several industries, with a certain emphasis on sectors linked to the construction industry. Construction can also be divided into several dimensions, such as new builds or government-subsidised repair, conversion or extension work, locally or globally, and housing, office and industrial premises or infrastructure projects. No material risks are deemed to have arisen other than those described in Note 34 of Latour's 2017 Annual Report.

Accounting policies

This interim report has been prepared in accordance with the Swedish Annual Accounts Act and IAS 34 Interim Reporting in respect of the Group, and in accordance with the Annual Accounts Act and Recommendation RFR 2 Accounting for Legal Entities of the Swedish Financial Reporting Board in respect of the parent company.

The Group has started to apply IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers with effect as of 1 January 2018.

IFRS 9 comprises three parts: Classification and measurement; Impairment; and Hedge accounting. Latour's reporting of financial instruments is only marginally affected by this new accounting standard. No impact has been identified relating to the classification and measurement requirements. With regard to impairment, the impact of the impairment model for expected credit losses is likely to be immaterial. No impact on opening balances can be identified relating to the hedge accounting requirements. Since the effects are immaterial, the opening balance for 2018 is not affected.

IFRS 15 provides a single model to determine how and when an entity should recognise revenue. Latour has opted to use the prospective approach, which means that prior-year comparatives will not be restated. The transition to IFRS 15 did not result in any material changes regarding the identification of the performance obligations or allocation of the transaction price to the performance obligations, or regarding the timing of revenue recognition when the performance obligations have been met. This means that the IFRS 15 standard has not had a significant impact on revenue recognition compared with the former revenue recognition standard. On the other hand, participating interests in associates and participating equity have increased by SEK 29 m as a consequence of an increase in Securitas' equity with the introduction of IFRS 15.

The parent company's financial statements are not affected by the transition to IFRS 9 and IFRS 15.

The effective date for IFRS 16 is for periods beginning on or after 1 January 2019. Although early adoption is permitted, the Group has elected not to early adopt the standard. As a result of the application of the new standard, Latour will recognise all significant leases on the balance sheet. The Group's leases are primarily for the leasing of premises, company vehicles and production equipment. The groundwork for the implementation is being laid but the Group has not yet assessed what impact the application of the standard will have on the financial statements.

The Latour Group uses a number of economic indicators that are not defined in the set of accounting rules used by the Group, so-called alternative performance measures. Definitions of the economic indicators can be found on page 20 of this report and in Latour's latest Annual Report. For an explanation of how the financial performance indicators have been calculated for the current and prior periods, please see the table in this report and Latour's latest Annual Report

The Annual Reports for 1986 to 2017 are available for viewing on Latour's website www.latour.se.

Nomination Committee

The Nomination Committee for the Annual General Meeting on 7 May 2019 comprises the following members.

Gustaf Douglas (chair, principal owner)

Fredrik Palmstierna (the Palmstierna family, and companies)

Olle Nordström (Skirner AB)

Göran Espelund (Lannebo Fonder)

The Nomination Committee can be contacted through Latour's website www.latour.se under Corporate Governance, Nomination Committee.

Gothenburg, 6 November 2018

Jan Svensson

President and CEO

Auditor's report on review of interim condensed financial statements (interim report) prepared and presented in accordance with IAS 34 and Chapter 9 of the Swedish Annual Accounts Act

Introduction

We have conducted a review of the interim report for Investment AB Latour (publ) corporate registration number 556026-3237 as at 30 September 2018 and the nine-month period ending on this date. The Board of Directors and the Chief Executive Officer are responsible for the preparation and presentation of this interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing practice.

The review procedures that are undertaken do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the parent company in accordance with the Annual Accounts Act.

Gothenburg, 6 November 2018

| Total | 14 | 0 | 7,233 | 7,247 |

- ¹ Level 1 valued at fair value based on quoted prices on an active market for identical assets.
- ² Level 2 valued at fair value based on other observable inputs for assets and liabilities than quoted price included in level 1.
- ³ Level 3 valued at fair value based on inputs for assets and liabilities unobservable to the market.

The basis of fair value for listed financial assets is the quoted market price at the balance sheet date. The basis of fair value for unlisted financial assets is determined using valuation techniques, such as recent transactions, the price of comparable instruments or discounted cash flows.

Hedging instruments consist of forward exchange contracts and interest rate swaps and are included in level 2. Valuation at fair value of the forward exchange contracts is based on levels established by the bank on an active market.

The fair value of accounts receivable and other receivables, current receivables, cash and other liquid funds, accounts payable and other liabilities as well as long-term liabilities are estimated to have the same value as their carrying amount. Market interest is not believed to materially deviate from the discount rate for interest-bearing long-term liabilities and therefore the carrying amount is considered in essence equal to the fair value.

The Group's valuation process is carried out by the Group finance and treasury department where a team works with valuation of the financial assets and liabilities held by the Group.

Note 3 Breakdown of revenues

Revenue by category

THE GROUP 30 September 2018

 $^{^{\}mbox{\tiny 1}}$ Comparative years recalculated with regard to the 4:1 share split carried out in June 2017.

Definitions of key ratios

Organic growth

Change in sales in comparable entities after adjustment for acquisitions and foreign exchange effects.

Operating profit (EBITDA)

Earnings before interest, tax, depreciation of property, plant and equipment and amortisation of acquisition-related intangible assets, acquisition-related costs and income, and items impacting comparability.

Operating profit (EBITA)

Earnings before interest, tax, amortisation of acquisition-related intangible assets, acquisition-related costs and income, and items impacting comparability.

Operating margin (EBITA) %

Earnings before interest, tax, amortisation of acquisition-related intangible assets, acquisition-related costs and income, and items impacting comparability, as a percentage of net sales.

Operating profit (EBIT)

Earnings before interest and tax.

Operating margin (EBIT) %

Operating profit divided by net sales.

Operating capital

Total assets less cash and cash equivalents, other interestbearing assets and non-interest-bearing liabilities. Calculated on the average for the past 12 months.

Total growth

Increase in revenue for the period as a percentage of the previous year's revenue.

Currency-driven growth

Increase in revenue due to currency changes for the period as a percentage of the previous year's revenue.

Organic growth

Increase in revenue for the period, adjusted for acquisitions/divestments and exchange rate changes, as a percentage of the previous year's revenue adjusted for acquisitions and divestments.

Basic earnings per share

Profit for the period divided by the number of outstanding shares in the period.

Calculations:

Jan-Sept 2018: 1,697/638,804,679 x 1,000=2.66 Jan-Sept 2017: 2,090/638,672,542 x 1,000=3.28

Diluted earnings per share

Calculations:

Jan-Sept 2018: 1,697/641,151,152 x 1,000=2.65 Jan-Sept 2017: 2,090/640,880,103 x 1,000=3.27

Equity ratio

The ratio of shareholder equity to total assets.

Adjusted equity ratio

The ratio of shareholder equity plus gains in associated companies to total assets including gains in associated companies.

Net borrowings

Interest-bearing liabilities less cash and cash equivalents and interest-bearing receivables.

Net debt/equity ratio

The ratio of net borrowings to either adjusted equity or the market value of total assets.

Return on equity

The ratio of net income booked in the income statement to average equity.

Return on total capital

The ratio of profit/loss after financial items plus finance expense to average total assets.

Return on operating capital

The ratio of operating profit to average operating capital.

Direct return

Dividends as a percentage of the share purchase price.

EBIT multiple

The ratio of operating profit to market value adjusted for net debt.

Net asset value

The difference between the company's assets and liabilities, when the investment portfolio (incl. associated companies) is recognised at market value and operative subsidiaries that are owned at the end of the period are recognised in an interval based on EBIT multiples for comparable listed companies in each business area.

Share of voting rights

Percentage of voting rights is calculated after deduction for repurchased shares.

Share of equity

Percentage of equity is calculated on total number of issued shares.

Other

The amounts in tables and other charts have each been rounded off. There may therefore be minor differences in the totals due to rounding-off.
