NORD-LOCK GROUP

OLA RINGDAHL

Nord-Lock Group

When safety really matters

Ola Ringdahl
CEO, Nord-Lock Group

Our **vision** is to be the trusted global partner in optimization of bolted connections.

Our **mission** is to safeguard human lives and customer investments.

Our values

Innovative technologies

Unmatched expertise

Global partnership

Acquisition focus 2015-2016

Nord-Lock Group

Innovative and Secure Bolting Solutions

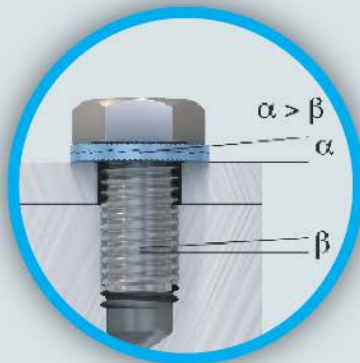

Five acquisitions completed:

- Twin-Lock (Italy), April 2015
- Boltight (UK), September 2015
- Tech-Eng (now Nord-Lock Australia), November 2015
- Nord-Lock Korea (Korea), January 2016
- Expander Group (Sweden, US, Germany), July 2016

Four main technologies

Nord-Lock Group

Innovative and Secure Bolting Solutions

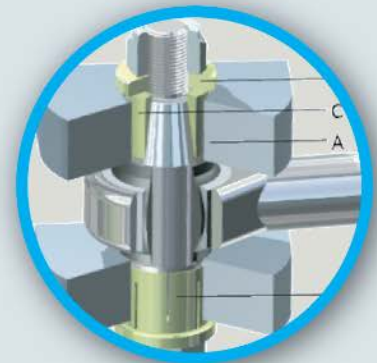

NORD-LOCK

SUPERBOLT™

BOLTIGHT™

Expander™

Our solutions:

Bolt securing systems

Nord-Lock original washers

Utilize tension to secure critical bolted joints exposed to extreme vibrations and dynamic loads.

Nord-Lock SC-washers

Provide maximum safety for critical bolted applications in the steel construction industry.

Nord-Lock wheel-nut

Secures wheels on vehicles by maintaining high clamping under extreme operating conditions.

Nord-Lock X-series washers

Provide total security against spontaneous bolt loosening and slackening combining Nord-Lock original wedge-effect and an exceptional spring effect.

Our solutions:

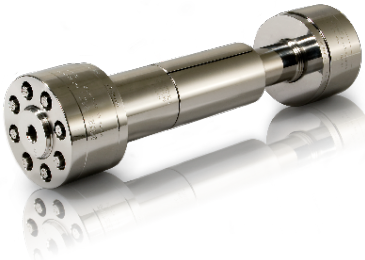

Bolt tensioning system

Mechanical bolt tensioners

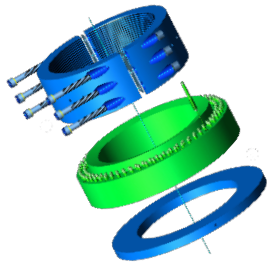

Superbolt multi-jackbolt tensioners

Innovative technology for tightening large bolts and studs. Our standard range includes nut-style tensioners and bolt-style tensioners.

Superbolt Expansion Bolts

Replace traditional interference or force fit bolts. They utilize Superbolt multijackbolt tensioners and can be produced in stainless steel for hydro applications.

Pre-engineered solutions and special designs

Wide range of pre-engineered special solutions.

Our solutions:

Bolt tensioning system

Hydraulic bolt tensioners

Standard or Specialised tools

Boltight hydraulic tensioning systems consist of a wide range of standard and bespoke bolt tensioning tools and ancillary equipment.

Main customer segments

- Power Generation
- Oil & Gas
- Heavy industry

Our solutions:

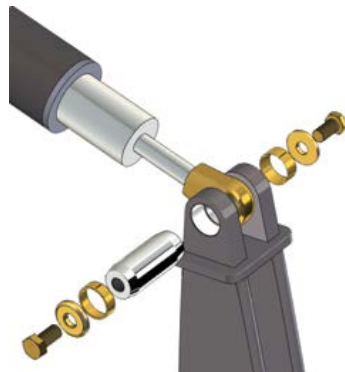

Pivot technology

Expander System

The global leader in pivot technology for OEM and aftermarket.

- Mining
- Construction
- Forestry / Agriculture
- Process industry
- Oil & Gas / Offshore

Customer benefits

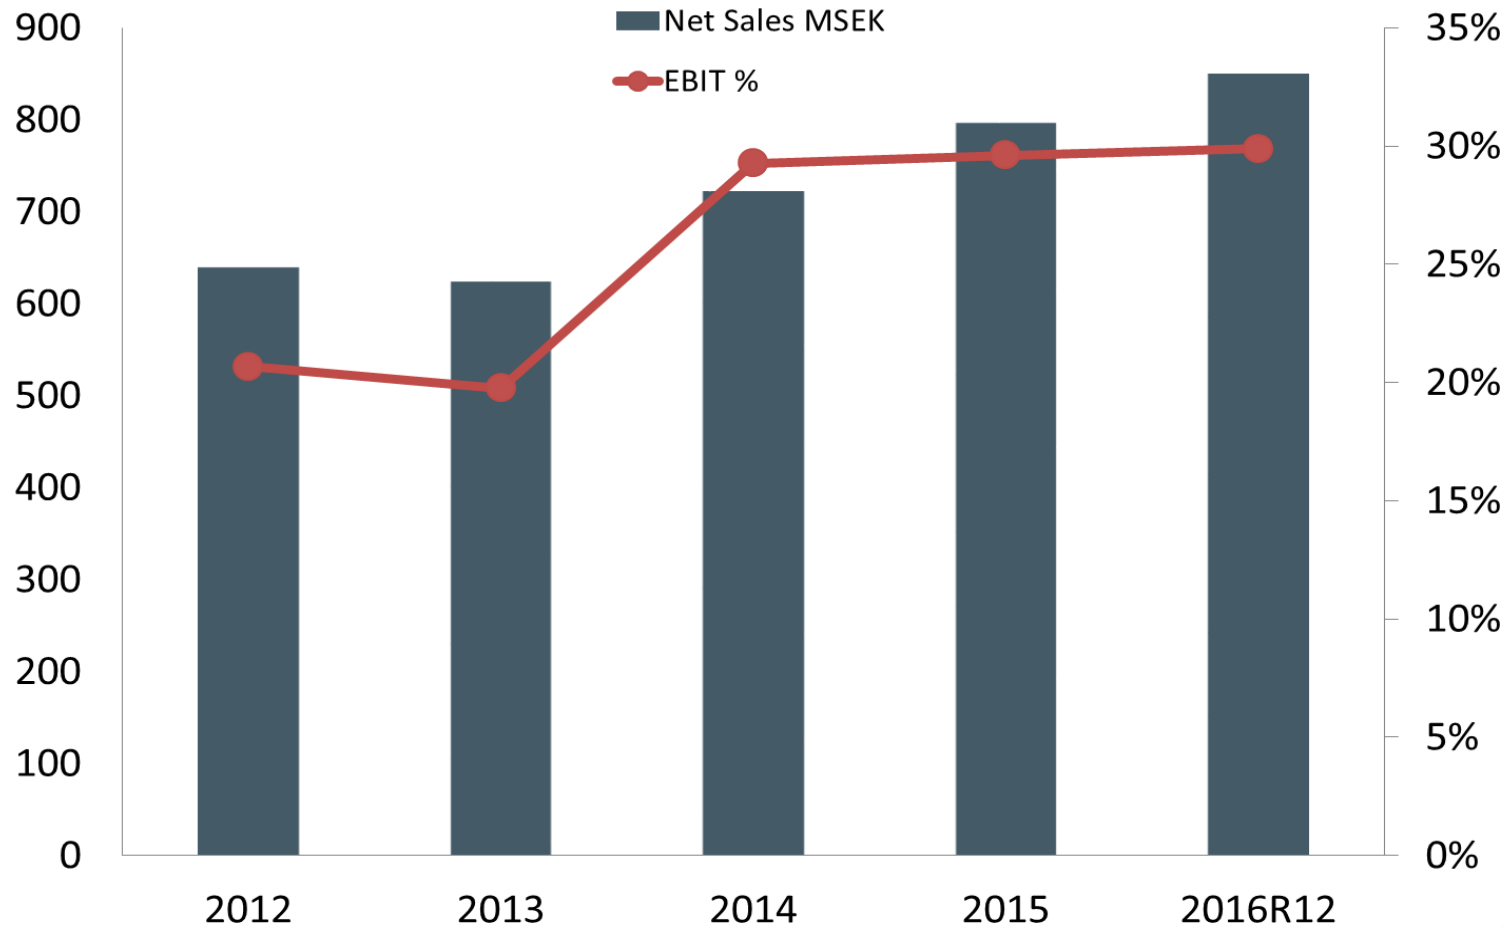

- Permanent solution for pivot wear
- 10 years or 10,000 hours function warranty
- Quick turnaround for design and delivery
- Fitting and dismounting is simple
- Double sided locking increases stability and safety

Sales and earnings development 2012-2016

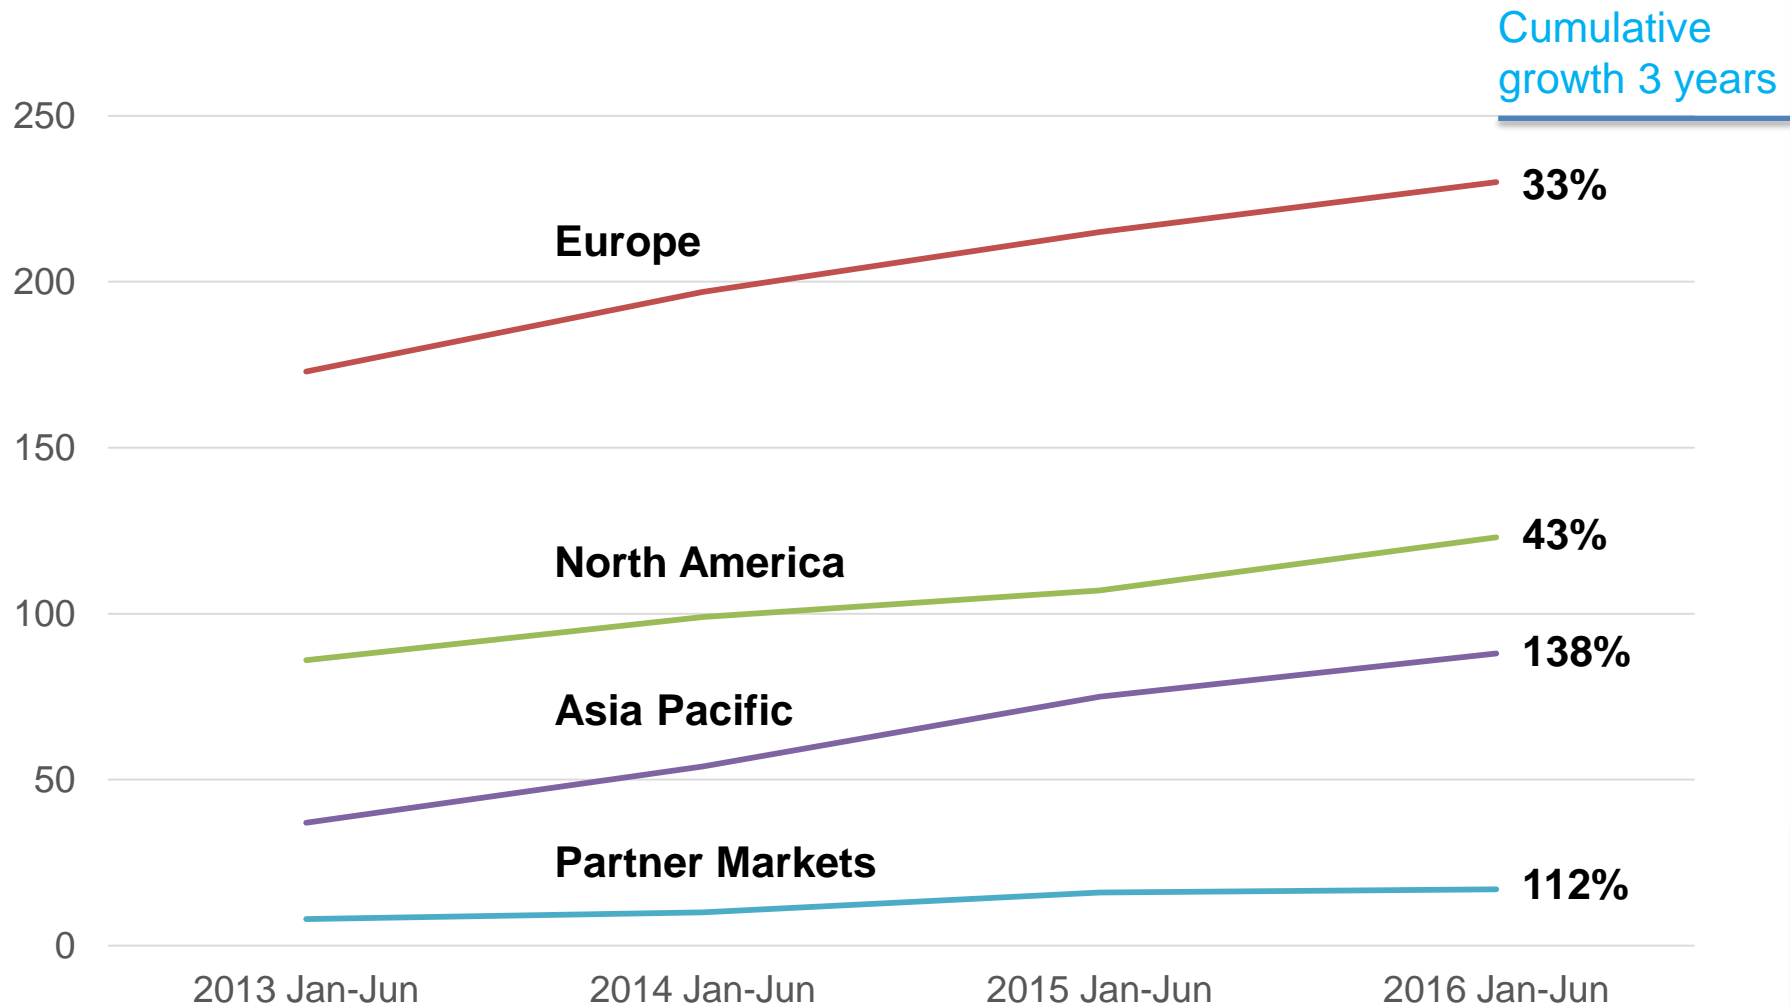

Net Sales (MSEK)

Nord-Lock

EBIT (%)

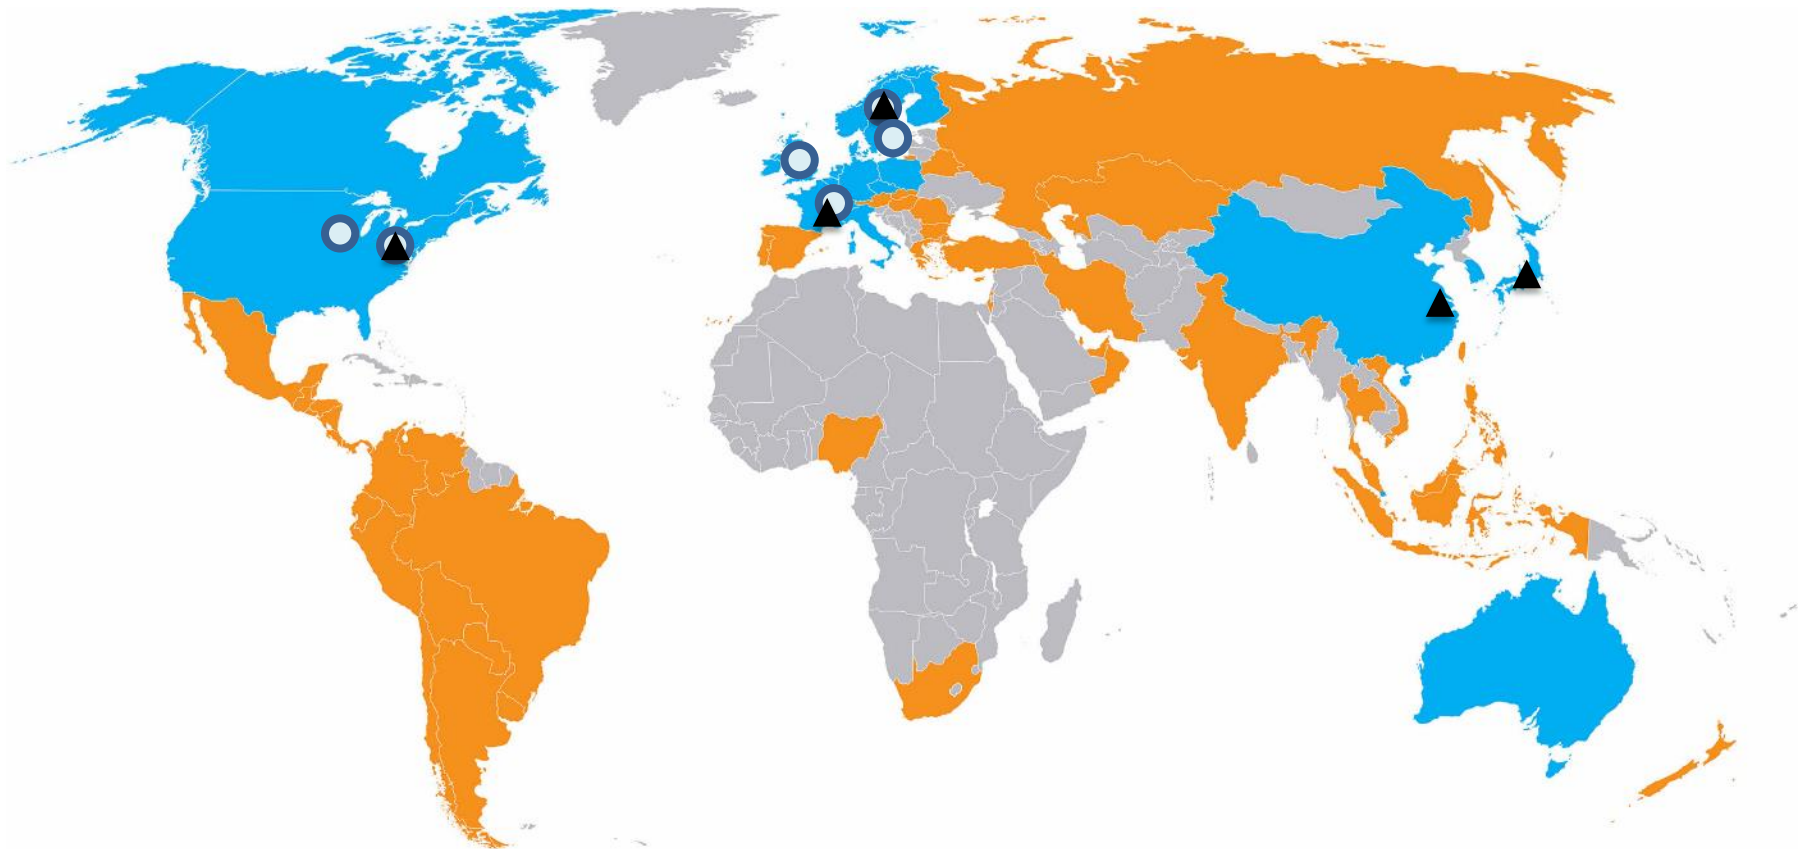

Sales development by region 2013 - 2016

Nord-Lock Group has a global presence

Established in 65 countries worldwide, with own offices in 20 countries

○ Nord-Lock Production Plant
▲ Nord-Lock Technical Center

■ Nord-Lock Office
■ Well established Nord-Lock distributor

Focus for the next 12 months

- Take good care of the acquisitions
- Explore sales opportunities and continue global sales growth efforts
- Focus on key customer segments and leverage vast reference database
- Continue to invest in product development and sales engineers
- Identify potential acquisitions and partnerships
